

White Mountain Series

When a rectangular shelter just won't make the statement you need. White Mountain series is offered in hexagon or octagon designs, enhancing any recreational area. Featured with either glu-laminated or tubular steel beams. Roof decking is available in steel or 2x6 tongue and groove. All White Mountain shelters feature non-bird nesting designs and are clear span for optimal space usage. Options include a variety of roof pitches, cupolas, clerestories, rails, etc.

Catskill Mountain Series

Catskill Mountain series shelters feature hip roofs, clear spans (no center post) for optimal space usage, and post spacings up to 30'. They are available in steel or wood post with steel or glu-laminated beams with optional 2x6 tongue and groove roof decking. They also feature non-bird nesting designs. Options include a variety of roof pitches, clerestories, and cupolas.

Wrangell Mountain Series

Wrangell Mountain series shelters are designed tough enough for your most demanding requirements and extreme conditions. They are constructed of tubular steel frames, powder coated for long-term durability and color cohesion. All Wrangell Mountain shelters feature non-bird nesting designs and are clear span for optimal space usage. Options include a variety of roof pitches and fretwork, etc.

Rocky Mountain Series

Ideal for family reunions or large park gatherings the Rocky Mountain Series shelters feature up to 30' post spacing, allowing for more usable space without posts interfering. All Rocky Mountain shelters feature non-bird nesting designs and are clear span for optimal space usage. Options include a variety of posts, roof pitches and fretwork, etc.

Ruby Mountain Series

Ruby Mountain Gazebos are quite spectacular adding beauty and grace to any setting or facility. Ruby Mountain gazebos feature arched glu-laminated beams with your choice of steel or glu-laminated posts. All Ruby Mountain shelters feature non-bird nesting designs and are clear span for optimal space usage. Available with cupolas, rails, ornamental trim and benches.

Siskiyou Mountain Series

The Siskiyou Mountain series features gracefully curved peak and camber glu-laminated beams. It is available up to 70' wide with choice of steel, glu-laminated or solid wood posts. All Siskiyou Mountain shelters feature non-bird nesting designs and are clear span for optimal space usage.

Appalachian Mountain Series

The Appalachian Mountain series shelters offer traditional style wood truss construction. Dutch hip roofs with louvers are designed for temperature reduction and cooler shade.

Sentinel Mountain Series

The Sentinel Mountain series shelters are ideal for providing cover for single tables, benches, bikes, or message centers. These shelters are an excellent choice for parks, golf courses, waysides, and other private and public areas.
